

JAIME MURPHY, RDH

CLINICAL EDUCATOR

CONTACT

@ rdh_jaime@yahoo.com

603.731.1164

Serving:

**New Hampshire, Vermont,
Maine, Massachusetts and
New York**

Jaime is a graduate of NHTI holding degrees in both Dental Hygiene and Early Childhood Education. Jaime has a passion for connecting with others and building rapport with both learning and educating. With over 17 years practicing as a Registered Dental Hygienist, Jaime's current positions include speaking for Dental Hygienist Associations, Dental Society Meetings and other venues. She is a Professional Educator for Waterpik, Territory Manager for Protect It Dental, Virtual and Live Educator for Young Innovations, A Clinical Product Trainer for Overjet and a Clinical Practitioner providing grade school screenings for the National Smile Survey project.

Jaime recently completed her journey in Private Practice with a General Dentist when he retired in November after being with the practice for the last 15 years. She still practices per diem and in a Federally Qualified Health Center, and has done so for almost 18 years. Jaime has been a Clinical Representative for Young Innovations for over 8 years, becoming the Territory Lead for the Northeast, supporting, training and mentoring the members of this team. In this position, she provided first-hand knowledge on dental hygiene processes, products and gave live and virtual Continuing Education courses to offices and dental professionals in her territory. Jaime still participates in focus groups and testing for new and re-engineered dental products.

Serving the Executive Board for NHDHA for the last 13 years, first as Trustee, then Vice President, as well as a 2-year term as the NHDHA President, Jaime was also Membership Chairperson for over 5 years and is currently serving her 8th consecutive year as the CE Chairperson. Jaime was chosen for 2015's ADHA Unleashing Your Potential weekend of leadership in Chicago. Jaime has served 5 terms as the Delegate Chair for ADHA's House of Delegates at their National Meetings. In addition, she serves on the NHTI Dental Advisory Board which holds the only Dental Hygiene Program in NH. Jaime loves all things shiny & sparkly and you can find her taking a million photos adventuring with her two adorable children.

Medical Emergencies: Are You Ready?

Presented By: Jaime Murphy, RDH & Addie Vega-Tupman, RDH, BS or Kristina Dion, RDSO, RDH

Course Description:

In this course, participants will engage in the review of the most common Medical Emergencies that occur in the dental setting. Discussion will include tools to prevent an emergency from occurring as well as prepare your office in the event of a Medical Emergency. Additionally, participants will learn clinical modalities to reduce workplace stress for the patient and the clinician as well as technology and products that reduce oral and systemic conditions that lead to increased morbidity and mortality risks.

Objectives:

- ❖ Investigate Best Practices that help to prevent a Medical Emergency from occurring in your office.
- ❖ Gain understanding of the process of care during a Medical Emergency.
 - Staff Roles
 - Actions Plans
 - Follow Up
- ❖ Understand and recognize the most common Medical Emergencies in the dental office.
- ❖ Learn the proper documentation needed when a Medical Emergency has occurred in your office.
- ❖ Review recommended supplies to handle the most common Medical Emergencies seen in dental settings.
- ❖ Discuss recommendations for routine evaluation of staff and supply preparedness.
- ❖ Evaluate workplace stress management and support.
- ❖ Convey recommendations for technologies, equipment and products that address predisposing risk factors and discuss the Oral Systemic Link.
